

If our paths cross, let's make sure they cross safely.

Are you and your passengers **buckled up?**

If the vehicle stops suddenly, safety belts protect everyone by holding them in their seats securely. Protect children by putting them in an appropriate, approved child restraint.

Driving means considering the safety of you and your passengers.

Being safe and secure in your seat is the first thing to check and easiest to do.

New Zealand law and safety belts:

- Safety belts must be worn in the front and back seats
- If you sit in a seat fitted with a safety belt, you must wear it at all times
- As the driver, it's your responsibility to secure children under 16

Each of us, looking out for each other .
